Hi _____

I'm super excited about something and thought of you and had to share. I have no doubt that you're aware of how hot GLP-1 is. (You know those synthetic shots for losing weight) Well, guess what? The company that I'm partnered with just came out with an all-natural, patented peptide that's truly riding the GLP-1 wave WITHOUT the drama! This little bottle helps you:

- Drop the pounds
- Obliterate food cravings
- Retain lean muscle mass

All orally (easy drops!), no needles, no synthetics, no refrigeration, and no battling stomach acid for absorption. Just natural support that works with your body!

Check out this 16.5 min video that I've attached below Once you've watched it I'd be happy to answer any questions that you may have.

What to send privately (in messenger) when someone responds to one of your GLP THREE social media posts.

Hi _____

Great to hear from you! Hope you and your family are well!

This product is amazing. I'm glad that you reached out. Do you want me to just set you up as a customer so you can benefit from it or would you like me to give you a call and talk to you about how you can make serious money referring this to people as well?

What to send privately (in messenger or via text) when someone responds to a social media post or a text that you sent and has pricing questions:

You can get the product at retail or wholesale. Depending on what you feel is best for you. We have an annual membership of \$30 (similar to Costco or Sam's club) which allows you to get a bottle for \$75 This wholesale pricing is good for the whole year. Not just on this product, but on all of our products. If someone would prefer to pay retail that same bottle is \$85

You can get 3 bottles for \$200, 9 bottles for \$599 (plus 2 free 'Purifi' which is a gentle detox) or 15 bottles for \$999 (plus 4 free 'Purifi') You would be locked into wholesale pricing for the year with no obligation to purchase. People seem to be using about a bottle a week. Everyone will be a little bit different, it's based on preference and need, but it seems like on 'average' most people will use about a bottle a week.

Let me know if you'd prefer Retail or Wholesale and I'll send you the appropriate link
